DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE	
<p>This building is three and one-half stories tall and two bays wide. The basement is rusticated stone, and the first story is ashlar. Upper stories are laid in running bond.</p> <p>The basement is pierced by two one-light, square windows. To the left, eight stone stairs lead to a doorway with a one piece transom. The doorway and transom are contained within moulded stone framing topped by a cornice.</p> <p>First story windows are single hung with one light. Above stone muntins are leaded glass transoms. From a projecting pedestal-like base rise the superimposed bay windows of the second and third stories. Both contain three double hung one-over-one windows with stone sills and flat-arched lintels, and brick mullions. Upper sashes of the second story windows contain leaded, lozenge-shaped lights. In the spaces below these window groups are three carved stone panels containing heraldic paraphernalia. An acanthus motif is added to the central panel. A double hung one-over-one window with stone flat-arched lintels and sills appear in the left bay of the second and third stories. Above the third story is a dentiled and braced roof cornice. A tiled mansard roof is pierced by a hipped roofed dormer containing two double hung one-over-one windows within a flat-arched wooden frame.</p>
